

A toast of Korea biotech industry

14 March 2012 | News | By BioSpectrum Bureau

"Dr Il-Sup Huh's input has been invaluable in advancing Green Cross to be the top-ranked biopharmaceutical company in S Korea and now he has the vision to further build a significant presence in the global biopharmaceutical market. His compelling motivation and ceaseless endeavor to develop more effective and safer medicines is in line with the company's mission."

Dr Eun Chul Huh, executive vice president, R&D, Green Cross

"As chairman of Green Cross, Dr Huh has great vision for the company and provides a strong leadership for our R&D-oriented company in the global market. He also emphasizes the path of righteousness and transparency. I am very glad to work with him and learn from his leadership."

Dr BG Rhee, president, Green Cross
