

Eisai, Nichi-Iko Pharma enters strategic partnership

29 March 2018 | News

Both companies will promote cooperation in building Eisai's Total Inclusive Ecosystem as well as collaboration on the active pharmaceutical ingredient (API) business promoted primarily at Eisai's Vizag Plant in India

Eisai Co., Ltd. and Nichi-Iko Pharmaceutical announced today that they have entered into a strategic alliance agreement as well as a share transfer agreement for a capital and business alliance, aiming to expand and grow the generic pharmaceutical business and bring about increased profit for both companies by leveraging the assets and strengths of both companies to their full potential and maximizing synergies.

Under the agreement, Eisai will transfer all shares of Eisai's wholly-owned subsidiary Elmed Eisai Co., Ltd. to Nichi-Iko incrementally in accordance with progress of the strategic alliance agreement, and both companies will promote cooperation in building Eisai's Total Inclusive Ecosystem as well as collaboration on the active pharmaceutical ingredient (API) business promoted primarily at Eisai's Vizag Plant in India.
