

2018 Taiwan Healthcare+ Expo to focus on Medicine X Technology

07 August 2018 | News

The expo is being conducted from 29th November to 2nd December 2018 at Taipei Nangang Exhibition Center.

Taiwan Healthcare+ Expo is the signature expo in Asia Pacific that provides solutions for medicine, health, and care. Starting from all aspects of healthcare needs, the expo strategically connects electronics, IT, biotech, pharmaceuticals, medical devices, precision machinery, precision medicine, and health management industries together.

To demonstrate the latest breakthroughs and advances as well as spark new business opportunities across the health industry, the inaugural Taiwan Healthcare+ Expo debuted in 2017. Using “From Birth to Death” as the main theme, the expo gathered over 300 medical centers and companies spanning over 1050 booths to outline the blueprint of the entire health industry.

Centered around “Medicine X Technology” as the key driver, 2018 Taiwan Healthcare+ Expo will gather multi-national tech giants and showcase the latest medical advancements and applications of state of the art technologies to healthcare. The expo is being conducted from 29th November to 2nd December 2018 at Taipei Nangang Exhibition Center.

Professionals from medical institutes, medical IT companies, medical device companies, pharmaceutical companies, biotech companies, and all health-related companies are invited to come discover new business opportunities and collaborations with global health industry players.
