Research and Markets offers new report on China pharma industry

Singapore: Research and Markets has added a report on China Pharmaceutical Machinery Industry to their offering.

This report first gives an overview of the pharmaceutical machinery industry, and then provides an analysis of China's pharmaceutical machinery industry development and the status quo from the point of view of industries, enterprises and products. The report also provides a data monitor for China's pharmaceutical machinery industry in 2007-2011.

After this, the report also makes a brief analysis on the demands and competition in the Chinese pharmaceutical machinery industry. To finish, the report makes a forecast on the development trend of China's pharmaceutical machinery industry.
