

Medtec China to expand to 2 Halls in 2020

05 June 2019 | News

It is predicted that Medtec China 2019 will bring together about 450+ premium brand suppliers from 23 countries around the world

Medtec China 2019 will be held at Shanghai World Expo Exhibition and Convention Center September 25–27. This exhibition has continued its upward momentum trend -- the overall scale of the event is up by 21%, and the area of exhibition booths commercially available has increased by 25%. To date, sales activities in terms of booth selling have proceeded favorably and are approaching the end as there are only a few booths available now. It is predicted that Medtec China 2019 will bring together about 450+ premium brand suppliers from 23 countries around the world, and 25,000 professional visitors. To participate in China's premier medical design and manufacturing exhibition,

Over the past five years, China's medical device industry has continued to grow at a 15% compound growth rate, and over the next 10 years the growth rate is expected to remain above 10% annually. Meanwhile the government of China also released some policies to encourage the rapid development of the medical device industry. To satisfy increasing demands and propose development and innovation of the industry, Medtec China will expand to two halls for the first time in 2020 and continue to provide the Chinese medical device industry with raw materials for product development, manufacturing and registration, precision parts and components, manufacturing equipment, processing technology, contract customization, testing and certification, policies and regulations, design, and market consulting, among other services.

Intelligence Match Making service connects precise business

For this year's show the organizers decided to cooperate with the leading global intelligence match making system supplier Jublia again to provide a series of high quality business match making services which will start one month before the show. The aim of reusing this upgraded system is to provide more valuable service to exhibitors so that they could reach more buyers easily, and also to help visitors to find qualified suppliers efficiently.

This productive service will be provided to 450 suppliers throughout the world, including 50+ new exhibitors who will gain access to hundreds of buyers and be able to make precise business appointments. Medtec China 2019 has enhanced the

Business Matching service to realize a better user experience for the intelligent meeting system and the onsite service follow-up plan. Accompanied by an activity contingency plan, based on the user's different product needs, the system intelligently screens exhibitors and professional visitors in order to provide a professional and efficient business invitation platform for both parties, which ensures a high exhibitors and visitors' participation rate of return.

Onsite conferences focus on hot spots and technology trends

The MDiT Forum and Regulation Summit 2019 focusing on Regulation, Quality and Technology will discuss the marketing authorization holder system (MAH), reform of the medical device clinical trial management system, regulation of medical devices upon launch on the market, FDA factory inspection, IIMD new materials, and 3D printing technology.
