

BIO Asia-Taiwan : Biotech as the Next Growth Engine for Asia

24 July 2019 | News | By Ankit Kankar

BIO Asia-Taiwan will be showcasing Taiwan's digital advantage in this sector and spotlight biotech and pharmaceuticals, medical devices, precision medicine, as well as AI applications, ICT and IoT technologies, and healthcare/medical investment.

24 July 2019 , Taipei .

Biotechnology Innovation Organization (BIO) and the Taiwan Bio Industry Organization (Taiwan Bio) have come together to present BIO Asia-Taiwan, taking place from today **July 24-28** in Taipei. Themed “**Biotech as the Next Growth Engine for Asia**”, this year’s event will attract more than 1,500 attendees from 25 countries representing biomedical, pharmaceutical, genomics, biotech services, equipment and instruments, academic research, cosmetology products and bio-based healthcare.

The five-day event will feature rich programming, company presentations from Asia and around the world, BIO One-on-One Partnering™ meetings, seminars and workshops, and an exhibition featuring more than 1,700 booths from 600+ companies.
