

Eppendorf Award Turns 25 Years

18 September 2019 | News | By Ankit Kankar

2020 will see the prestigious Eppendorf Award for Young European Investigators turn 25 years. This will be celebrated with an event welcoming back high-calibre Award Alumni to talk about their science and careers:

Hamburg, October 2019

The **Young European Investigators Conference** held at the EMBL Advanced Training Centre in Heidelberg, on June 25, 2020. This free one-day conference is open to all scientists in biomedical research. The scientific program is organized by former winners Simon Boulton (The Francis Crick Institute, United Kingdom) and Óscar Fernández-Capetillo (CNIO, Spain & Karolinska Institute, Sweden). The event includes networking coffee breaks and lunch and a gala buffet in the evening. It will be rounded off with a talk from the newly minted 2020 Award winner.

Jury Chairman Reinhard Jahn: "I am really excited about the meeting which shows that the science done by previous winners of the EYIA is indeed outstanding!"

Further information and registration details are available at www.eppendorf.com/award/25years

Call for Entries for the Eppendorf Award 2020

The Eppendorf Award for Young European Investigators, endowed with 20,000 EUR, is granted annually to an early career scientist in Europe for outstanding contributions to biomedical research. It has been awarded, in partnership with *Nature*, since 1995.

To become the 25th winner of the Eppendorf Award, researchers in Europe up to 35 years with an advanced degree in the field of biomedical research can apply online between October 1, 2019, and January 15, 2020, at www.eppendorf.com/award/application

The winner is selected by an independent expert committee chaired by Reinhard Jahn (Max Planck Institute for Biophysical Chemistry, Göttingen, Germany). Full details on the Eppendorf Award for Young European Investigators, the selection criteria, and previous winners can be found at www.eppendorf.com/award
