

GHA, MSQH team up for medical travel accreditation in Malaysia

30 October 2019 | News

GHA and MSQH will work with accredited hospitals in Malaysia

The Global Healthcare Accreditation (GHA) Program for Medical Travel Services and the Malaysia Society for Quality in Health (MSQH), have announced the signing of a Memorandum of Understanding (MoU) for collaboration between the two accreditation programs to strengthen the protocols and services provided by healthcare providers to medical travel and international patients in Malaysia.

GHA and MSQH will work with accredited hospitals in Malaysia as a prerequisite to offering Global Healthcare Accreditation for Medical Travel Services in the region.

The accreditation may be from a recognized national or international accreditation body, such as MSQH or other ISQua accredited organization. MSQH will also serve as GHA's local partner in Malaysia, providing information about GHA accreditation to hospitals serving international and medical tourism patients.
