TPP Commits To Transform The Delivery of Health and Care Globally

05 November 2019 | Influencers | By Ankit Kankar

TPP CEO Mr. Frank Hester OBE in a " BioInteraction " with BioSpectrum Asia's Podcast Host Mr. Ankit Kankar at SNOMED CT Business meetings & Expo in Malaysia

Nov Special Interview - Malaysia.

TPP is a healthcare technology company, dedicated to delivering world class healthcare software in the UK and internationally.

Mr. Hester (Founder & C.E.O) breifed about TPP Philosphy to join up healthcare based on a shared electronic medical record, improving access to clinical data and empowering patients to take part in their own care. TPP's core product, SystmOne, makes this possible and is used by over 200,000 clinicians across 7,000+ organisations

Mr. Hester in his Podcast & Webcast with BioSpectrum Asia highlighted the facts of TPP-UK

- **Over 50 million patient records.**
- **Over 200,000 clinical and administrative users.**
- **Over 7,000 NHS organisations - including more than 2,600 GP practices and all 142 prisons.**
- **2.5 million patients using SystmOnline to access their medical record.**
- **100% system availability - verified by NHS Digital.**

Mr. Hester said " TPP has the aim of improving the prevention, diagnosis and treatment of a wide range of serious illnesses, including cancer, heart disease, stroke and diabetes. All participants are currently genotyped, with progress being made towards whole genome sequencing for everyone. This powerful medical resource will help scientists discover why some people develop particular diseases and others do not. "

TPP collaborates by providing full electronic health record data, data linkage and data science support.
