ChemPartner introduces new operation centre in Shanghai

March 20, 2020 | News

The building, operating as ChemPartner's new Global Operation Center, houses approximately 700 employees and new laboratories

Shanghai ChemPartner announced the opening of a new, state-of-the-art, 24,000 m^2 laboratory facility in the Zhangjiang Hi-Tech Park in Shanghai, China.

The building, operating as ChemPartner's new Global Operation Center, houses approximately 700 employees and new laboratories for ChemPartner's discovery chemistry, biology and pharmacology, and the DMPK and exploratory toxicology departments. It also has a nearly 2,000 m^2, AAALAC accredited animal facility.

"This facility demonstrates ChemPartner's commitment to be an innovative, technology-driven CRO," said Michael Hui, Chairman at ChemPartner. "We invested $35 million dollars into this new facility to make it a premiere drug discovery and development solution for our global clients."

Shanghai ChemPartner, which includes ChemPartner, ChemPartner Biologics, and China Gateway Pharmaceutical Development, offers a broad range of drug discovery and development capabilities including biologics discovery, chemistry and medicinal chemistry, biology and pharmacology, DMPK and exploratory toxicology, and small and large molecule CMC. Shanghai ChemPartner serves a diverse global client base and has laboratories, business offices, and representatives in the US, Europe, China, and Japan
