Interphex Japan concludes in Tokyo

International pharmaceutical R&D and manufacturing conference and expo, the 25th Interphex Japan, concluded on a successful note in Tokyo. Held from June 27 till June 29, at Tokyo Big Sight, the expo had 1,177 exhibitors. The companies took the opportunity to launch and demonstrate their new products amid packed visitors. Around 1,000 specialists from the pharmaceutical industry attended the keynote session and participated in intensive technology consultations and business discussions.
