ASIA EDITION

Thailand to discuss Biorisk Mitigation & Infection Control at Asean ISSA Global Biorisk Symposium

November 13, 2020 | News

The Symposium for Biorisk Mitigation & Infection Control, take place virtually and in person from December 3-4, 2020

Informa Markets in Thailand, the leading exhibition organiser, ISSA, the Worldwide Cleaning Industry Association and GBAC, a Division of ISSA have formed a strategic partnership to help cleaning professionals prepare for, respond to and recover from the novel coronavirus and other infectious agents.

The ASEAN edition of the ISSA Global Biorisk Symposium will take place virtually and in person from December 3-4, 2020 in Bangkok Thailand. It will be one part of symposium series being held in Shanghai (virtually on September 10, 2020) and Mumbai (virtually on December 11, 2020).

Spread among multiple countries and dates, the ISSA Global Biorisk Symposium brings together the people and companies redefining the global cleaning community. The symposiums are designed to provide the commercial, institutional, and residential cleaning industry with lessons learned and best practices in disaster management and readiness, resiliency as well as leadership in times of crisis.

The Structure and Topics

ISSA Global Biorisk Symposium ASEAN will host a variety of hot topics resulting from the current challenges and solutions to cleaning and disinfecting in the property management and hospitality industries worldwide in aims to prevent future global pandemic outbreaks.

Sessions are concise resulting in an information-packed program. All Symposiums are accessible to all who are interested, by connecting directly through the Symposium registration site. Questions can be asked via a chatbox and are read out by the meeting moderators. Each panel is specifically tailored to the partnering event's native country. In addition, each panel has been carefully assembled with only the top experts in their fields to bring the best solutions possible.

This is not just another online training — the ISSA Global Biorisk Symposium's team of experts and academics from across the industry and world will speak on various angles related to COVID-19 including strategies for training frontline workers, cleaning methods and processes, and communicating with stakeholders.

Presenters will not only be presenting the latest ideas, but many will be speaking to what is happening in the world RIGHT NOW. Speakers will have timely and inspiring messages that will speak to the "Changing the Way the World Views Cleaning."

Benefits of Attending

Ideal for cleaning industry professionals, environmental services personnel, forensic restoration teams, biosafety professionals, biohazardous spill response teams, facilities like offices, restaurants, hotels, airports, convention centers, stadiums, and other public venues of all sizes.
