

Agilex Biolabs acquires TetraQ as part of APAC expansion plans

07 April 2021 | News | By Manbeena Chawla

Agilex also offers pharmacodynamics services that include immunobiology services

Agilex Biolabs, Australia's largest and most technologically advanced specialist bioanalytical laboratory for clinical trials, has announced the purchase of leading biolab TetraQ, based out of the University of Queensland.

Agilex Biolabs CEO Jason Valentine said the Board and senior management at Agilex Biolabs were extremely pleased with the purchase of such a high-calibre bioanalytics company.

"TetraQ complements the Agilex Biolabs work in Australia and APAC with its expert staff and years of experience in regulated bioanalytical services," he said.

Agilex Biolabs specialises in bioanalysis of small molecules and biologics for PK, immunogenicity, biomarkers and immunological pharmacodynamics assessments utilising LC-MS/MS, immunoassay (Mesoscale, Gyrolab, Luminex) and flow cytometry (BD FACSymphony A3, 20 colour cell analyser).

Agilex also offers pharmacodynamics services that include immunobiology services using the latest state-of-the-art technology to support immunology, cell biology and mode of action assays.

Agilex Biolabs has more than 100 staff which includes 75 dedicated laboratory staff and supports clinical research for biotech clients from US, Europe and APAC.
