Thailand LAB INTERNATIONAL 2021 and FutureCHEM INTERNATIONAL 2021 (27 -29 Oct 2021)

October 18, 2021 | News

VNU Asia Pacific drives the scientific laboratory equipment market through the full-fledged online event

VNU Asia Pacific in association with Science and Technology Trade Association and Thailand Center of Excellence for Life Sciences (Public organization) under Ministry of Higher Education, Science, Research and Innovation unveils to organize Thailand LAB INTERNATIONAL 2021 and FutureCHEM INTERNATIONAL 2021, the full-fledged online exhibition scheduled to take place during 27 -29 October 2021.

All registered users will have a chance to win the rewards from the organizer. Students will receive scholarships or personnel from academic institutes as a special campaign to create awareness and support them to be the next driver for development and investment in scientific laboratory equipment for life sciences, biotechnology and chemical industry in the region in the future.

Thailand Lab & FutureCHEM 2021, will be an online exhibition platform encompassing booths from almost 100 leading exhibitors, organizations, and public agencies as well as associations from the country. Both exhibition and conference will be convened fully under a new sophisticated virtual platform in order to facilitate exhibitors and all visitors to pursue all activities, from pre-registration, information access, online conference and seminar, online networking activities as well as online business matching service.

“Thailand LAB INTERNATIONAL 2021 is one of remarkable laboratory exhibition, showcasing new products, technologies, innovations, and researches through the virtual booths and exhibition with real-time communication on the Live Chat with the exhibitor. The event shall be gathered with the world-leading scientific companies such as Thermo Fisher Scientific, Danaher, Merck, Eppendorf, Mettler Toledo, PerkinElmer, Agilent Technologies and Sartorius, Shimadzu together with key distributors in the country, for example, DKSH, Becthai, Bara Scientific, Bio Active, Sithiporn and Geneplus to showcase their technologies and innovations for research and industry sectors covering on food and drug, cosmetics, life sciences, medical and healthcare technology. Moreover, FutureCHEM INTERNATIONAL 2021, the new event for this year is aimed at the chemical industry in particular those on petrochemical, pharmaceuticals, cosmetics, and food & dietary supplement industries which shall be presented through our conferences by the experts from the public and private sectors as well as associations and business companies on chemical industry” said Khun Anucha Parnpichate, Senior Project Manager of VNU Asia Pacific.

Variety of conference and seminar with over 30 sessions shall serve as the highlight of this year event by the organizer together with public and private sectors, associations and leading educational institutes in this industrial concerned such as Thailand Center of Excellence for Life Sciences (Public organization), National Institute of Metrology (Thailand), Thailand

Institute of Scientific and Technological Research, Biotech Industry Club and Dietary Supplement Club from The Federation of Thai Industries, The Association of Medical Technologists of Thailand, The Virology Association (Thailand), The Biosafety Association (Thailand), Thai Society of Toxicology, National Food Institute and AOAC International Thailand Section, Institute of Food Research and Product Development, KU-FIRST, Department of Livestock Development, Thai Association of Veterinary Laboratory Diagnosticians, Post Graduate Foundation - Veterinary Science Mahidol University (PGF-VSMU), The Faculty of Public Health, Thammasat University, Thai Institute of Chemical Engineering and Applied Chemistry, Polymer Society of Thailand, Thai Industrial Pharmacist Association of Thailand, The Society of Cosmetic Chemists of Thailand, Thai Cosmetic Cluster and Thai Young Scientists Academy in order to promote Thailand LAB INTERNATIONAL 2021 and FutureCHEM INTERNATIONAL 2021 to be the promising international laboratory exhibition platform for all industries and cover from research and development, quality control, quality assurance to the product commercialization. Above this, the certified and accredited laboratory is the key element to move the industry toward the world arena.

In order to create awareness for the study and research in the scientific laboratory among students, the organizer likes to invite university students, professors, and personnel from the science and technology, medical sciences, or any faculty in related fields to make a pre-registration within 26 October 2021 and participate this online event during 27 – 29 October 2021. Students will have a chance to win three scholarships of 5,000 Baht as educational contributions. For general visitors and participants, you are invited to pre-register to attend the event with a chance to win ten of 500 Baht Starbucks Gift Cards on the lucky draw at 16.00 hrs. every day during the event.
