Taiwan Excellence Pavilion to showcase 10 leading medical tech innovators at Medical Fair Asia 2022

August 17, 2022 | News | By Hithaishi C Bhaskar

A range of cutting-edge technologies and products in the medical and dental equipment solutions will be showcased over the three-day show to be recognised with the Taiwan Excellence Award

Taiwan Excellence will be participating for the first time at the Medical Fair Asia 2022, to be held on-site at Marina Bay Sands from 31 August to 2 September, and online from 3 to 9 September.

Organized by Taiwan's Bureau of Foreign Trade and Taiwan External Trade Development Council (TAITRA), the Taiwan Excellence Pavilion will be showcasing 10 exhibitors and a range of products such as surgical devices, medical and dental navigation solutions, Point-Of-Care Technology and decentralized medicine and mobility scooters over the three-day show.

All exhibits at the pavilion are rewarded with the 'Taiwan Excellence Award", the highest accolade bestowed upon the most innovative and high-quality Taiwanese products that also demonstrate Taiwan's commitment to enhancing smart medical care in the hospital, diagnostic, pharmaceutical, medical, and rehabilitation equipment and supply industry.

The exhibitors of the Taiwan Excellence Pavilion include:

1. Taiwan Surgical Corporation
2. Insight Medical Solutions Inc
3. EPED Inc
4. Medimaging Integrated Solution Inc
5. Winnoz Technology Inc
6. Sigknow Biomedical Co., Ltd
7. Wellell Inc
8. iXensor Co., Ltd
9. Heartway Medical Products

10. BENQ Medical Technology Corporation

“The development and advancements coupled with the increased accessibility of medical technology to the wider public in recent years have called for a greater emphasis on innovation. We believe that Taiwan’s advantage in ICT has allowed our Taiwanese medical technology innovators to be well-positioned in leveraging Taiwan’s status as one of the top medical care providers in the world. We are proud of the success stories of companies such as BENQ, Insight Medical Solutions, EPED Inc, Winnoz Technology and iXensor among others and we proudly present what Taiwan Excellence has to offer to the larger Medical Technology industry at Medical Fair Asia 2022”, said Ms Wu Yi Ling, Director of Taiwan Trade Center Singapore.

Ranked 13th in the 2021 World Index of Healthcare Innovation and the first in Numbeo’s Healthcare Index, Taiwan has been recognized as one of the world’s top medical care providers with advanced capabilities in biotech and pharmaceuticals. Medical Fair Asia 2022 will serve as a platform to cement Taiwan’s position as a global innovation leader in the MedTech field through its expertise in integrating advanced technologies with the latest medical applications to enable connected and smart healthcare.

“Through our participation at Medical Fair Asia 2022, we hope that Taiwan Excellence can reach out to not only our trading and medical technology partners in ASEAN regions but also assist more people in living longer and healthier lives with our innovative technology,” added Ms Wu.
