Largest ever edition of analytica Vietnam set to take place on April 19-21, 2023

April 4, 2023 | News

The largest gathering of laboratory technology, analysis and biotechnology professionals in Southeast Asia

The 7th analytica Vietnam 2023 is set to take place from April 19-21, 2023, at the Saigon Exhibition and Convention Center in Ho Chi Minh City, Vietnam. The event is organised by Messe München, a leading international trade fair organiser, and is expected to attract thousands of exhibitors and visitors from around the world.

analytica Vietnam 2023 is a premier event for laboratory technology, analysis, and biotechnology professionals. The conference programme features over 30 conference sessions and panel discussions presented by leading industry experts from across the globe. Attendees can expect to learn about the latest trends, challenges, and advancements in the industry, and gain insights into the future of laboratory technology and analysis.

analytica Vietnam, known as the most important hub in the ASEAN Region, is celebrating its biggest event ever with expected 5,000 diagnostic professionals, industry's top buyers and investment decision-makers from more than 30 countries in the world. The trade fair will be the first face-to-face meeting since the hit of COVID-19. With sponsorships from Thermo Fisher, BIOVIA and BTG, the upcoming edition of analytica Vietnam 2023 is expected to bring together a spectacular reunion of the science and research sector.

The 2023 trade fair exhibitors include national and international industry giants – Thermo Fisher Scientific, Shimadzu, Merck, Leco, ITS, DKSH, 2H Instruments, Scilab, Eppendorf and Waters. The exhibition show will feature international exhibitors from – Germany, Italy, UK, Japan, Canada, Korea, France, Czech Republic, USA, Singapore, India, Thailand, and China. The German Federal Ministry for Economic Affairs and Climate Action and the Association of Small & Medium Enterprises Singapore (ASME) will support the exhibition with a German and Singapore Pavilion.

Conference Programme from top industry experts

The analytica Vietnam Conference will take place on 19-20 April in parallel to the with the trade fair. The conference programme features over 30 lectures presented by national and international experts from science and research sector across the globe to report on the latest topics in the areas of biomedical, and forensic analysis, novel analytical methods, food analysis and environment analysis and quality control. It is organised by Prof. Dr Oliver J. Schmitz (University of Duisburg-Essen, Faculty of Chemistry) and Prof. Dr Pham Hung Viet (VNU University of Science, KLATEFOS).

Latest laboratory working practices

There will also be two practical tutorials on laboratory working practices on both days of the conference. The two half-day workshops "Compliant Modernization of HPLC Gradient Elution Methods in View of USP 621 Revision" and " 3-MCPD and MOSH/MOAH Analysis" inform about the details of the automated workflows for routine analysis." They focus on laboratory staff and students and require advance registration.

The Exhibitor Forum, part of supporting programme within the exhibition halls, provides exhibitors with a platform for presenting their products and services live to a professional audience which is interested in the applicability of laboratory technology, analysis, biotechnology and diagnostics related services and products.
