London Biotechnology to unfold at Olympia West on 8th May

May 7, 2024 | News

Global speakers and innovators to unveil disruptive technologies and groundbreaking cutting-edge biotech products, solutions, and services

The London Biotechnology show is all set to kick-start on 8th May at Olympia West, London, UK. The 2 day conference & exhibition that will host an outstanding speaker lineup delivering insightful keynotes and world class exhibitors unveiling disruptive technologies and cutting-edge biotech solutions.

The show will officially commence at 9 am (GMT +1) featuring opening remarks by the organisers. The pivotal opening session will be led by Charles Hickson, Deputy Head – Strategic Sectors at UK Export Finance, discussing UK Government Support for The Life Science Sector. Following that, Thomas Balkizas, Senior Director Life Sciences – Microsoft will shed light on GenAI and Biotech: Pioneering the Future of Life Sciences with AI Copilots.

As the day unfolds, the impressive lineup of speakers and thought-provoking panel discussions will delve into some important themes including the exploration of Recombinant DNA Technologies, Clinical Trials and Advanced Therapies, Recombinant Technologies and Genetic Engineering, Stem Cell Research, Regenerative Medicine, and Tissue Engineering, Genomics, Proteomics, and Bioinformatics.

Parallel to the conference, the show will simultaneously host a **massive expo space** offering sponsors and exhibitors a platform to showcase their groundbreaking products and services, which include 70+ regional and global exhibiting companies, like Discovery Park, Agilent Technologies, Aramex, Phaidon International, NHS Innovation Service, Merck Life Science, Thermo Fisher, etc. The show is expected to have a full house, with already over 4000+ attendees registered for the show.

The show will also run some thoughtfully curated side events including **Startup Showcase** in collaboration with Discovery Park and Discovery Park Ventures. This program is designed to catapult emerging biotech companies into the spotlight and become a launch pad for the future leaders in the ever evolving and disruptive biotechnology industry.

Through this programme, attendees can look forward to enlightening keynotes by industry stalwarts, including Martino Picardo, Chairman of Discovery Park, who will unveil the Ventures Portfolio and the support it offers. Likewise, Rebecca Todd, Partner at Longwall Venture Partners LLP, will impart invaluable insights and tips from an investor's perspective, offering a glimpse into the mind of venture capital. Andrew Pledger, Ecosystem Manager at Barclays UK, will shed light on the plethora

of support and opportunities available for startups, catalysing the next wave of innovation.

The programme will allow budding entrepreneurs to pitch their revolutionary ideas and innovations in front of a captive audience of VCs & industry titans, providing them with ample opportunities to unlock promising business deals.

In the presence of 4000+ registered audiences, including 1500 companies, 70+ sponsors & exhibitors, 60+ speakers, 30+ media partners and other relevant stakeholders, the gathering will navigate the ever-evolving landscape of biotechnology, fostering dialogue, innovation and collaboration. Amidst high-level discussions with renowned speakers from leading companies, first-hand experience with the latest products, services, and solutions in the medical and broader healthcare sectors.

The London Biotechnology Show is a one-stop shop for attendees to convene, connect and collaborate with the key stakeholders across industry sectors, establish themselves as leading market players, learn invaluable insights, join important conversations, close business deals, schedule 1-2-1 meetings with desired participants and much more. Don't miss out on this opportunity to witness the future of biotechnology firsthand. Register now and be a part of this year's one of the most important medtech events.
