Antibody Engineering & Therapeutics Asia 2024: A Premier Gathering for Cutting-Edge Antibody Research and Innovation

September 1, 2024 | News | By Ankit Kankar | ankit.kankar@mmactiv.com

Join over 250 experts in Kyoto this October to explore the latest breakthroughs in antibody engineering, AI-guided discovery, and therapeutic advancements.

Antibody Engineering & Therapeutics Asia:

Date: October 21 – 23, 2024
Location: The Westin Miyako Kyoto

Antibody Engineering & Therapeutics Asia will bring together more than 250 leading researchers, scientists, and industry professionals to discuss the latest advancements in antibody engineering and their therapeutic applications. The conference will cover a wide range of topics, including:

- Bispecific and Multispecific Antibodies
- Clinical Antibody and ADC Programs and Lessons Learned
- AI-Guided Antibody Discovery & Engineering
- Antibody Engineering, Discovery and Selection
- Alternative Non-Antibody Scaffold

Key highlights of the conference include:

- Presentations from world-renowned pioneers who are front and centre of the experience.
- Interactive workshops and poster presentations showcasing cutting-edge research from peers.
- Networking opportunities with colleagues from around the globe.

What's more, as a BioSpectrum reader, you can receive 30% off your pass using the discount code **BIO30** at checkout.
