Transasia named 'Global Growth Company 2014'

Singapore: Transasia Bio-Medicals has been selected as the 'Global Growth Company 2014' by the prestigious World Economic Forum (WEF) at the India Economic Summit. This award recognises the strength of the company's ability to become future Global leader.

The nominated Global Growth Companies (GGCs) represented a broad cross-section of industry sectors but share a track record of exceeding industry standards in revenue growth, promotion of innovative business practices and demonstration of leadership in corporate citizenship. Transasia Bio-Medicals being commended as India's top manufacturer and exporter of diagnostic products to over 100 countries has been proudly reckoned in this cadre.

The award function was held during the India Economic Summit organised by WEF along with the Confederation of Indian Industry (CII) for facilitating the forum's global multi stakeholder community to meet the new government and together define and shape the country's next phase of transformation. India's Finance and Defence Minister Mr Arun Jaitley inaugurated the summit.
