

Global medtech firm DJO ventures into India

18 February 2014 | News | By BioSpectrum Bureau

Mumbai: DJO Global International, one of the world's largest orthopaedic companies, has ventured into India. The firm's product range includes a wide variety of non-surgical orthopaedic products for rehabilitation, pain management and physical therapy for treatment of arthritis. Five-of-the-10 products have already been launched by the company and it plans to launch the remaining five products over a period of one year.

DJO Global's products address several concerns associated with patient care, including injury prevention, rehabilitation after surgery, injury or from degenerative disease, enabling people to regain or maintain their natural motion. The company's products are used by a large number of healthcare practitioners such as orthopedic specialists, spine surgeons, primary care physicians, pain management specialists, physical therapists, podiatrists, chiropractors, athletic trainers and other healthcare professionals. Furthermore, several of the company's medical devices and related accessories are used by athletes and patients for injury prevention and at-home physical therapy treatment.

DJO product lines include rigid and soft orthopedic bracing, hot and cold therapy, bone growth stimulators, vascular therapy systems and compression garments, therapeutic shoes and inserts, electrical stimulators used for pain management and physical therapy products. The company's products are marketed under several brands including, Aircast, Chattanooga, CMF, Compex, DonJoy, Empi, ProCare, DJO Surgical, Dr Comfort, Bell-Horn and Exos.
