CPhI China to begin from June 21

Singapore: Hosted by the UBM EMEA and CCCMHPIE and co-organised by UBM Sinoexpo, this year's CPhI China will be conducted at the Shanghai New International Exhibition Centre (SNIEC) China from June 21 to 23, 2016.

The event will provide a platform to harness diverse market opportunities, throw light on the latest pharma and biotech market trends, regulations and will provide a global view of the current market insights. Many leading pharma executives are expected to be a part of the event.

The event is held in conjunction with P-MEC China and will co-locate with ICSE, BioPh, Innopack, LABWorld, NEX China, P-Logi, Clean Room & EP, Hi China, co-located with Fi Asia-China.

The event will showcase nearly 2,800 exhibitors including over 1,130 pharma ingredients exhibitors, 400 plus biopharmaceutical and natural extracts specialists, 500 plus pharma machinery professionals and more than 150 pharmaceutical packaging, materials & drug delivery.

The four-day program will also include over 182 speakers from China and international thought-leaders, presenting more than 50 seminars, 24 high level forums, and two C-level networking events across three days.
