

Igenomix Dubai wins 2017 Frost and Sullivan's Specialized Award

26 May 2017 | News

With more than 18 years of experience implementing new techniques and genetic services worldwide, Igenomix has an impressive Research & Development with significant visibility on future genetic applications.

Igenomix has achieved yet another milestone in the field of advanced reproductive genetics in Middle East after being honored with Frost & Sullivan Best Practices Awards.

This Global program recognizes outstanding industry achievements by companies worldwide. The methodology for determining Award recipients is unique - a deep dive research and analysis is conducted by Frost & Sullivan industry experts, which is presented to an esteemed and independent panel of Judges, comprising senior executives representing the top companies in the Middle East.

Mr. Francisco Rodríguez, General Manager at Igenomix Middle East & India, received the Frost & Sullivan Award. Igenomix offers specialized genetic services that include PGD (Preimplantation Genetic Diagnosis), PGS (Pre-Implantation Genetic Screening), CGT (Carrier Genetic Test), NACE (Non-invasive Prenatal Test) and ERA (Endometrial Receptivity Analysis). With more than 18 years of experience implementing new techniques and genetic services worldwide, Igenomix has an impressive Research & Development with significant visibility on future genetic applications.
