Korea's VUNO showcases AI-powered radiology solutions at ECR 2020

July 15, 2020 | News

VUNO's exhibits VUNO MedÃ?Â®Ã¢â?¬â??LungCT AIÃ¢â??Â¢, VUNO MedÃ?Â®-Chest X-RayÃ¢â??Â¢, andÃ?Â VUNO MedÃ?Â®-DeepBrainÃ¢â??Â¢Ã?Â at European Congress of Radiology 2020 happening virtually from July 15 to July 19

VUNO Inc., South Korean artificial intelligence (AI) developer is showcasing its solutions at the European Congress of Radiology 2020 (ECR 2020) to be held from July 15 to July 19, 2020. The company aims at showcasing the power of its flagship AI radiology solutions that have recently received the CE mark.

VUNO's exhibition at the event will include VUNO Med®–LungCT AI™ that detects, locates, and quantifies pulmonary lung nodules on CT images, VUNO Med®-Chest X-Ray™ that assists in the chest X-ray readings of common thoracic abnormalities on chest radiographs. VUNO Med®-DeepBrain™ is a diagnostic supporting tool for degenerative brain diseases through brain parcellation & quantification on brain MR images.

On top of the three solutions to be showcased at this event, VUNO has two other solutions that have gained CE certifications recently - VUNO Med®-BoneAge™ and VUNO Med® – Fundus AI. All these five products are now available to be marketed in countries where CE marking is acceptable.

VUNO Med® solutions are designed to be agnostic to any devices and any environments offering seamless integration with any PACS and/or EMR systems. They are offered via cloud servers allowing users to analyze images anytime, anywhere with access to the Internet. They are also available through on-premise installations as well.

As part of its ambitious plan to go global, VUNO is set to seize this opportunity to further expand its networks with sales prospects and business partners from all around the world.

ECR, one of the leading events in the field of radiology, will be joined by industry experts, medical & healthcare professionals, modality manufacturers and solutions developers, etc. In the light of the COVID 19 epidemic, the congress organizers have decided to opt for an online-only event. With about 2,100 leading industry representatives onboard, the exhibition of ECR

2020 can be accessed from 08:00 a.m. July 15 to 21, until 11:55 p.m. CEST. Free registration & participation is available on the ECR 2020 Virtual Exhibition website. (https://ecr2020.expo-ip.com/).
