Thailand LAB INTERNATIONAL & FutureCHEM set to unravel in Oct 2021

August 11, 2021 | News

Bio Asia Pacific remains unchanged during September 1-3, 2021 as Virtual Event

Following the increase in COVID-19 transmissions in Thailand recently, VNU Asia Pacific as an organizer, together with the Science and Technology Trade Association (STTA) and Thailand Center of Excellence for Life Sciences (TCELS) would like to announce the **postponement of Thailand LAB INTERNATIONAL 2021 from its original date to (NEW DATE) OCTOBER 27-29, 2021 at Halls 101- 102, BITEC, Bangkok.**

Thailand LAB INTERNATIONAL 2021 together with FutureCHEM INTERNATIONAL 2021, the new show concept for the Chemical Industries will further provide a substantially upgraded **Hybrid Platform** (Physical Exhibition + Conference + Online Platform) **during October 27-29, 2021 at BITEC** for the maximum benefit and flexibility of all participants in accessing our exhibition and conference platform.

As of now, pre-registration, show information, floor plan, virtual exhibition, online conference and online business matching with target buyers is available through this new platform. Please visit www.thailandlab.com for more information or register at https://virtual.bioasiapacific.com/e/Bio-Asia-Pacific-2021?ref=BAP328

FutureCHEM INTERNATIONAL 2021 will present as a co-located event with Thailand LAB INTERNATIONAL 2021. This event focuses on the conference for chemical businesses in petrochemical, pharmaceuticals & cosmetics and food & supplement industries organized through our online and offline platforms. For more information, please visit https://www.thailandlab.com/future-chem/

The original event dates and times of **Bio Asia Pacific 2021** remains unchanged with both the exhibition and conference now **Fully convened under a virtual platform during September 1-3, 2021**. There will be no physical exhibition this year due to the COVID-19 situation.

Bio Asia Pacific will adopt the virtual platform with the maximum features for all online exhibitors and visitors, gathering booths from global biotechnology organizations, international associations, and companies with interactive facilities to increase the online experiences. This new digital platform will require exhibitors and visitors to pre-register online for seamless business interactions. Bio Asia Pacific conferences will focus on Thailand's post-COVID Life Sciences Industry Outlook, the first shot of homegrown COVID-19 vaccines, Pathway to Stock Exchange of Thailand, Biomimicry: Trend in Cosmetics

Innovation from Nature and more. Please visit https://bioasiapacific.com/ for more information or register at https://register.thailandlab.com/e/Thailand-LAB-INTERNATIONAL-2021?ref=TLAB342
