Showcase of Cutting-Edge Cold Chain Technologies at KINTEX on April 22 in South Korea

April 12, 2025 | News

Reflecting the latest trends in cold chain transportation and distribution

The 3rd Korea Int'l Cold Chain Exhibition (KOREA COLD CHAIN 2025), where the latest technologies and solutions in South Korea's cold chain industry will be showcased, will take place from April 22 to 25, 2025, at KINTEX 1. The event is organized by the Korea Cold Chain Association and KY EXPO.

KOREA COLD CHAIN 2025 is a specialized exhibition presenting innovative technologies in cold chain distribution and logistics for industries such as food, pharmaceuticals, and biotechnology. Participating companies and industry experts will introduce the latest equipment and solutions while sharing information to enhance logistics and distribution efficiency.

This year's exhibition will feature a variety of programmes reflecting the latest trends in cold chain transportation and distribution, refrigeration and freezing equipment, and sustainable packaging technologies.

Leading Industry Companies to Participate, Showcasing the Future of Cold Chain Logistics

Top companies driving the cold chain industry will take part in the exhibition, showcasing their latest technologies. Exhibitors will present products and solutions across various fields, including cold storage warehouses, cold chain packaging, refrigerated and frozen transportation solutions, and real-time monitoring systems, while also providing networking opportunities with industry experts.

Featured Exhibitors and Products:

- Samjin Bridge: Sustainable cold chain packaging solutions

- Sintro Valley: Resource-circulating cold chain packaging & Re:energy solutions

- Thermo Lab Korea: Eco-friendly, reusable, smart packaging products and platform services

- FMS Korea: Cold chain packaging materials, containers, refrigerants, and related solutions

- Top Run Cold Chain Solutions: Cold chain packaging, refrigerants, IoT data loggers, and air/sea trackers

- FedEx: Global healthcare logistics network

- Korea Container Pool: Logistics standardization and shared logistics equipment system

New Technology Seminar for Cold Chain Advancement

To enhance the domestic cold chain industry, KOREA COLD CHAIN 2025 will feature the '2025 New Technology Seminar for Cold Chain Advancement,' where global cold chain trends and new technologies will be discussed.

- Date: Wednesday, April 23, 2025, 12:50–16:00

Maximising Industry Synergy through ICPI WEEK Collaboration

KOREA COLD CHAIN 2025 will be held as part of ICPI WEEK (International Cosmetic & Pharmaceutical Week), alongside KOREA MAT (International Logistics Industry Exhibition), KOREA PHARM & BIO (International Pharmaceutical & Biotechnology Exhibition), and COPHEX (International Pharmaceutical, Biotechnology, and Cosmetic Technology Exhibition). This integration aims to create significant synergy by connecting various industries.

Kintex 1-

?Korea Cold Chain: Cold chain Solution

?COPHEX: Pharmaceutical, biotechnology, and cosmetics manufacturing & packaging

?KOREA MAT: Logistics, automation, and packaging solutions

?KOREA CHEM: Chemical processing and fine chemical technologies

?ESG Pack: Sustainable packaging solutions

Kintex 2-

?KOREA PHARM & BIO: Pharmaceutical ingredients, drug development services, and biotech startups

?Cosmetic Inside Korea: Cosmetics raw materials, packaging, and services

?KOREA LAB: Laboratory research and analytical equipment
