Sharjah Research, Technology and Innovation Park inks partnership with Roche Diagnostics Middle East

May 3, 2025 | News

To identify and pursue opportunities in developing the healthcare sector in Sharjah

Roche Middle East and Sharjah Research, Technology and Innovation Park (SRTI Park) have sealed a partnership to drive sustainability and healthcare innovation in Sharjah.

According to the Memorandum of Understanding signed between the two organisations, Roche Diagnostics Middle East will work closely with SRTIP in identifying and pursuing opportunities in developing the healthcare sector in Sharjah - maintaining the highest standards of human and patient-centricity, innovation and sustainability.

By combining Roche's scientific expertise with SRTIP's innovation-driven infrastructure, this collaboration can significantly impact healthcare advancements, sustainability, and knowledge-driven growth in the Middle East region.

SRTIP and Roche Diagnostics have pledged to work together to develop opportunities for healthcare innovation that employ biotech and digital health solutions to enable personalized medicine and strengthen regional capabilities.

The MoU was signed by Hussain Al Mahmoudi, CEO of the Sharjah Research, Technology and Innovation Park, and Guido Sander, General Manager Middle East, Roche Diagnostics Middle East.
