Thermo Fisher announces opening of new headquarters in Malaysia

May 17, 2025 | News

Thermo Fisher solidifies partnerships with three companies in Malaysia

Thermo Fisher Scientific in the Asia Pacific region has announced the grand opening of its new Malaysia Commercial Headquarters in Shah Alam. This milestone marks a significant step in expanding the company's local presence and enhancing its connections with customers and partners, enabling it to provide tailored solutions in healthcare, life sciences, and other vital industries.

The inauguration event witnessed the presence of over 200 distinguished guests in attendance, including representatives from the US Embassy, valued customers, strategic partners, and dedicated colleagues from across the nation.

During the event, Thermo Fisher solidified partnerships through three Memoranda of Understanding with Biocon Biologics, TRANSWATER API (157513-M), and Clinical Research Malaysia. These collaborations underscores the company's unwavering commitment to its Mission, which is to enable customers to make the world healthier, cleaner, and safer.

"Looking ahead, Thermo Fisher is focused on the opportunities that lie before us. We remain dedicated to investing in local capabilities, fostering innovation, and actively contributing to Malaysia's journey towards growth and sustainability", said Tony Acciarito, President- Asia Pacific, Thermo Fisher.
