Emirates Hospitals Group announces strategic collaboration with Nice University Hospital in France

January 31, 2026 | News

Partnership marks a significant step forward in advancing clinical excellence, medical education

Emirates Hospitals Group (EHG), one of the UAE's leading integrated healthcare providers, has announced a strategic collaboration with Nice University Hospital (Centre Hospitalier Universitaire de Nice), France, a renowned European academic and tertiary care institution. The partnership marks a significant step forward in advancing clinical excellence, medical education, and research across the region.

The collaboration aims to foster knowledge exchange, clinical cooperation, physician training, and academic partnerships, leveraging Nice University Hospital's internationally recognised expertise in specialised care, research, and medical innovation, alongside EHG's strong clinical footprint and growing healthcare ecosystem in the UAE.

Christian Schuhmacher, Executive Chairman of the Board, Emirates Hospitals Group, said, "This collaboration with Nice University Hospital represents an important milestone in Emirates Hospitals Group's journey to continuously raise clinical standards and strengthen our academic and medical capabilities. By partnering with a leading European university hospital, we aim to enhance knowledge transfer, support physician development, and ultimately deliver better outcomes for our patients."

Prosenjit Bhattacharya, Chief Operating Officer of Emirates Hospitals Group, added, "This partnership reflects EHG's ongoing commitment to elevating patient outcomes by aligning with globally recognised centres of excellence and bringing international clinical expertise closer to patients in the UAE. It also aligns with our broader strategy to expand international partnerships, strengthen specialist services, and position EHG as a leading platform for advanced healthcare delivery, education, and research in the region."
